- Guidance on understanding and clarifying my needs for my major and career (future advice included!). Suggesting other academic opportunities, and career goals as needed. Can never thank my advisor enough for suggesting DAR class, class sections, and providing other support and encouragement to stay in my path (most notable one was a email wishing me luck on the final semester (I really needed that)).

- Meeting with Christine is one of my favorite parts of the semester. She shows how much she cares for you each time you see her by remembering little things about you! She goes above and beyond as an advisor by also being a friend during the times of college that can feel a little scary.

When her name is mentioned, from professors to my peers I watch as a smile appears on their face as we talk about how much we love Christine. Without her my college schedule would be in ruins. She also took her time to talk to the club about visiting advising and I wish to plan more activities like this in order to spread the word of how amazing she is and that college is just easier when going to her. I hope she wins this reward cause she truly deserves it.

Most advisors would try and keep me for as long as possible but she is helping me to graduate and I forever will be grateful when I walk across that stage !! I love Ms. Jacobs
- Understanding of students, keeps their best interest in mind, friendly & compassionate, suggests different opportunities as needed, offers information on things the student was not aware of, sends good luck email during exam times (most stressful times), and always positive (even when I am not). I encountered several different advisors during my time at KSU, but Jacobs takes the top spot. From the bottom of my heart, I can rest easy knowing that I have received consultant/guidance from Jacobs regarding my future academic career.
- Christine's exemplary reputation as a fantastic advisor precedes her! A KSU alum and friend gushed to me about how instrumental Christine had been in helping her to achieve her dreams and it really put my mind at ease about starting school to know I had such an amazing advisor to help me get started. I met and talked with Christine about my goals and concerns, and from then on I felt she was sincerely invested in my future. Christine wasted no time and hit the ground running, explaining options available to me such as taking CLEP exams for some of my courses, saving me valuable time and money. She was extremely proactive and had some of my previous credits from another school approved to substitute for some of my courses and surprised me with the good news at our second meeting! Finally, she determined a way I was able to change my major to my dream major I didn't know I could qualify for with the same online tuition I was paying before. I haven't taken my first class at KSU yet but I feel prepared and confident. Christine is a valuable asset to Kennesaw State University and because of her outstanding abilities as a student advisor, my future looks awesome, and I can't wait to start school.
