

How to Edit Accommodation Settings for All Quizzes and Exams

This tutorial covers how to change the maximum time modification for a student with accommodations on all quizzes and exams in D2L. This modifier applies to all quizzes and exams without having to manually input the time extension on a on every item. This will not allow you to change the open or end dates of quizzes or exams, those must still be done manually on every item.

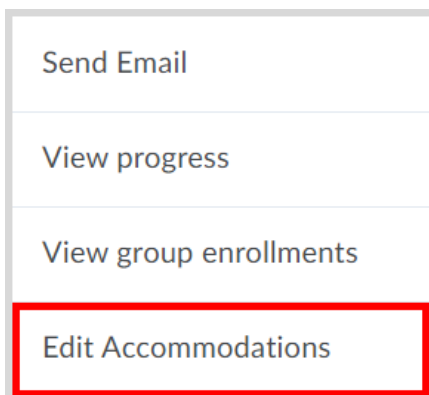

1. In your D2L course, click on the “Classlist” Tab.

2. In the Classlist, navigate to the student who needs their accommodations modified, and click on the “carrot” symbol next to their name.

3. Once the dropdown menu appears, click the “Edit Accommodations” button.

- Once the “Edit Accommodation” Popup appears, check the “Modify Time Limit” Checkbox to allow the values of the time multipliers to be modified.

The “Multiplier of original quiz time” will multiply the maximum quiz time given by the value, while the “Extra time” will add minutes to the maximum quiz time by the value. **Note:** You may only select one of these options. Thus, we recommend you set the “multiplier of original quiz time” to 1.5 so as to abide by the traditional accommodation standard. If your Student Disability Services

- Once you have selected your option and entered a value, click the “Save” Button to complete the “Editing Accommodations Process” for this student. You can tell if this worked by a badge appearing next to the student’s name in the Claslist.
